OFFER FOR THE CATERING INDUSTRY
HERBS - SPICES - DRIED FRUIT AND NUTS

FROM AROUND THE WORLD

The company name 'Levant' comes from the French word for 'East' and refers to oriental roots and Middle Eastern trade. Thanks to its extensive purchasing contacts, Levant offers a wide range of delicatessen products from all over the world. Having access to original oriental recipes and products, it ensures the continuous development of its assortment and regularly supplements it with innovative proposals.

Single-ingredient spices, seasoning mixes, dried vegetables and dried fruit and nuts are packaged in our own production facility. This allows us to maintain the guarantee of the highest product quality, as well as to make modifications for the individual needs of dedicated customers. The goods supplies come not only from the local market, but also from India, Indonesia, Jordan or Chile. The product offer is in line with market trends, which is appreciated by the industry, as exemplified by winning the Gold Medal of the World Food Poland 2022 Fair for the „7 Spices” product.

The diversity of the offer, the possibility of its modification and the continual expansion of the product range prove that Levant Foods meets the expectations of its customers by guaranteeing a very wide assortment of the highest quality goods.
